Manoj Singh Negi

★ PROFILE SUMMARY

In my current role I work as a Freelance Javascript developer for a number of organisations. I have worked with clients from all over the world and built intelligent applications with quality and efficient solutions.

I have been writing about javascript on medium & my blog.

★ SKILLS

Javascript, HTML/CSS, ReactJS, NodeJS, jQuery, React Native, PWA, MongoDB, TypeScript, AngularJS, Team Management, Client Communication, Ionic.

★ EXPERIENCE

Independent, Remote – *Freelance Javascript Developer*

March 2014 - PRESENT

- Collaborated with developers and clients all around the world.
- Developed applications in almost every major Javascript framework.
- I have managed small size teams as a lead developer in a lot of the projects.
- I have built multiple small open source libraries and components.

★ PROJECTS & CLIENTS

EduLastic – *ReactJS Developer*

Online assessment managing tool for students and teachers.

- I have worked on getting analytics data from different data sources and present it in a meaningful way which can benefit the users of the application.
- Refactoring code to follow best programming practices.

- Providing code reviews.

ReactJS, Redux, Redux-saga, Lodash

Avibra – *React js & React Native Developer*

Life coverage based on daily activities

- I have built their web partner portal.
- Integrating google fit and fitbit API for detecting users activities.
- Integrating AWS login into the React Native APP and React Web app.
- Providing code reviews.

ReactJS, Redux, React Native, Redux-thunk, Lodash, AWS

Nutrient.app – *Lead Front-end Developer*

Making food healthy again using AI

- I was responsible for maintaining the architecture of Front End application.
- I built the whole application from scratch using bootstrap and ReactJS.
- Built the recipe layout, instructions layout and pantry management Front End.
- Providing code reviews.

ReactJS, Redux, Redux-thunk, Lodash

OrigioWork – *Javascript & JQuery Developer*

Showcase your design portfolio

- I built a Rich text editor which was capable of handling drag & drop blocks. It consists of all the blocks needed for making a portfolio website. For e.g Image, Video, Custom Layout etc.

Javascript, JQuery
